(Labea) ratiroad line. The administration area on the Geerlitz (Zgorzelec) - Lawben house south of the depot. The fuel tanks are buried below the ground, Two intake openings in the ground are the only indication of the presence of a fuel depot. The installation is subordinated to the Warsaw Fuel Production Central Administration (Central Produktów Naftowych) (CNP). 2. Gasoline and Piesel fuel are stored in the underground tanks of the fuel depot. Puring the period under observation, only the filling of the tanks was observed, at a daily rate of 2 tank cars of either type fuel. The depot had no means of transportation of its own. 3. The number of persons observed at the fuel depot never surpassed 10. All of them wore civilian slothes. During the night, two firemen and two Polish work police were on duty at the depot. The depot area was surrounded by a 2-meter-high mesh ware fence.							* -	25X1
